THE FRIEND OF MANKIND.

AN INTERNAL AND EXTERNAL REMEDY.  
BALM FOR EVERY WOUND.

It cures Rheumatism and Neuralgia, and all other pains of the system. It is the only remedy for Rheumatism on the Continent, and is the only one that can be used in the most delicate cases. It is a powerful and instant cure for the unfortunate sufferer.

It rapidly absorbed, penetrates to the very heart of the disease, neutralizing all the morbid influences circulating in the blood, and expelling them from the system through the natural excretory organs.

It will cure the most agonizing Pain internal or external, in one instant of time. Collect your price and give it a trial. It is a small and simple remedy.

The great secret of the success with all classes is owing to the fact that it is safe and harmless, pleasant to take, gives instant relief, and can be applied to the widest range of diseases in every day life, with greater success than any preparation which has been devised, and "Medical Science" has no rival.

It is the great power over every disease, any person, no matter who it may be, is in the hands of the "EMPERESS RELIEF." It is the only remedy that can be used in the most delicate cases.

**WONDERFUL DISCOVERY.**  
**EMPRESS RELIEF.**

THE FRIEND OF MANKIND.  
AN INTERNAL AND EXTERNAL REMEDY.  
BALM FOR EVERY WOUND.

It cures Rheumatism and Neuralgia, and all other pains, "Descriptive of the only remedy known to the world." It is the only remedy known to the world.

It is rapidly absorbed, penetrates to the very bones, enters the circulation, neutralizes all "Rheumatic" poisons, and expels them from the system through the natural outlets.

It will cure the most agonizing Pain internal or external, in one instant of time. (Look your price and give it a trial; the investment is small and relief certain.)

The great secret of the success with all classes is owing to the fact that it is safe and harmless, pleasant to take, gives instant ease, and can be applied to a wide range of disease in every day life, with greater success than any preparation which we have yet produced.

It is the great power over every disease, any person, no matter who it may be, Rich or Poor, Old or Young, who is suffering from any of the above named complaints, will find at the Office in Toronto, any day of the week, will get practical advice from any of the medical men.

Anticipation from all parts of the Dominion are constantly coming to buy, giving expression to the most grateful gratitude for astonishing cures which it has performed, and we would be glad to receive testimonials from all others who use it successfully.

Physicians of the highest repute, and the most successful "domestic remedy" for the relief of Pain in cases of sudden emergency.

Carey to your homes, and it will prove infallible for your families and afflicted friends.

Druggists are selling enormous quantities of it wherever they are sold.

I challenge the World to produce its equal.

Price, 25 cents per Bottle.

The Trade supplied through the Wholesale Drug and Patent Medicine Houses of Montreal, Toronto, Hamilton and London, or sent by all express and parcel post.

SEND 25c. to HOWELL & CO., New York for Pamphlet of 100 pages, containing full particulars of this medicine, and estimate of cost of advertisement.

## Conquering the Afghans.

Further Details of Gen. Roberts' Decisive Victory in the Peiwar Pass.

HARD FIGHTING AND HOW THE INDIAN TROOPS STOOD UP TO IT.

Mohammed Asim's Fort in the Kurum Valley was occupied without opposition by General Roberts' force on the 25th of November, in which date the advanced guard under Colonel Gordon, consisting of the Fifty Punjab Infantry, a mounted infantry battery and a squadron of the Tenth Hussars, camped on the plain near the fort.

Wood and supplies were scarce, and great confusion was apparent in the Afghan arrangements. The division was gradually concentrated here, and on the 28th advanced toward the Peiwar Pass, a distance of fifteen miles, in two brigades. The First Brigade, leading the way, consisted of the Eight Foot, Fifty Punjab Infantry, Twenty-second Native Infantry and Twenty-third Punjab, with a mountain train. The Second Brigade, following, consisted of the Twenty-second Highlanders, Second Punjab Infantry, and a battery of the Tenth Hussars.

At about noon the division moved on, and with one squadron of the Tenth Hussars, a battery of the Tenth Artillery, and a company of the Tenth Cavalry, under the command of Brigadier-General Roberts, the division moved on, and with one squadron of the Tenth Hussars, a battery of the Tenth Artillery, and a company of the Tenth Cavalry, under the command of Brigadier-General Roberts, the division moved on.

## Daily Intelligence.

Watering Cattle in Winter.  
It is certain that cattle suffer greatly during the winter by the insufficiency and quality of the water they receive as well as by the manner in which they are watered. In many cases they have nothing but ice-water to drink. It is pumped from a shallow well into a trough, the interior of which is covered with ice, and as a water of course, it soon becomes of nearly the same temperature.

Many farmers only furnish their cattle water once a day during the coldest weather. They do not think it is best to expose them to the cold often than that, possibly for the reason that they dislike to expose themselves. During these severe cold days the food of cattle is generally dry hay, straw, and such like. A feed of chaff, bran, shorts, or meal. To digest these properly requires the presence of considerable water in the stomach.

Cattle kept on this kind of food and denied water for twenty-four hours are most likely to drink uncleanly water, if they get a chance. If the water is near the temperature of the air, they will drink it. In some cases they are watered through snow drifts in going from the stable door to the watering trough, and in other cases they stood on ice or in water while drinking. Cold and congestion often result from this chilling of the system, and if they do not, the animals are liable to catch cold. It is better to bring water into their barns for the purpose of watering their cows during the winter. It saves the exposure of the animal to the weather, and also saves the exposure of the person who has the care of them. Some have a trough running the entire length of the cow manger, and there are a tank from which the cows can drink in turn as they are unloaded.

There is a great advantage in supplying cattle with spring water, if it can be procured without too much expense. It is ordinarily of the most desired temperature both in winter and summer. A supply of spring water in a barn saves many steps, and much exposure of men and animals. Like good food, it helps cattle to lay on fat, and does much to insure a large crop of milk. If it is necessary to water cattle at a well, pump, or cistern, it is better to get the formation of ice about the trough, and the accumulation of ice within it. The exposure of the water to the air, and the often causes them to slip on the ice and thus injure them. Every watering trough should be supplied with a plug for the purpose of preventing the water from running off the remains after the cattle have drunk all they desire. Under the plug should be a chute for conducting the water away. There are many advantages in having the pump and trough under an open shed.

The New Horse Shoe.  
The English Agricultural and other press are in raptures over the Yates horse-shoe, constructed of cow-hide. It is composed of three thicknesses of cow-hide, compressed into a steel mold, and then subjected to a chemical preparation. It is claimed for it that it lasts much longer and weighs only one-fourth as much as the common iron shoe; that it never causes the hoof to split, nor have the least injurious influence on the foot. It requires no calks; even on asphalt the horse never slips. The shoe is so elastic that the horse's step is lighter and surer. It adheres so closely to the foot that neither dust nor water can penetrate between the shoe and hoof. It is also claimed for it to be true, the new shoe will prove a great improvement upon the old. The idea, however, of a shoe means a new one. At the time of the Roman and Carthaginian wars it was widespread practice among officers to bind the feet of their horses with raw cowhide, to protect them from injury during an engagement.

Preserving Timber.  
The improvements in saturating wood and timber invented by H. Saintsbury of Paris, in employing acids in the relative proportions of water, one thousand parts; alum, sixteen kilns; sulphuric acid, fifteen kilns; potassium, one kiln; and iodine of sodium, one kiln, have been found to be very effective in preserving timber from decay. The inventor claims that the acid, which he immediately injects into the wood, which he draws off in a vessel, from which he immediately injects the above mentioned acid with a pressure varying from fifteen pounds to one hundred and fifty pounds to the inch. It is stated that wood thus injected not only acquires thereby a considerable degree of hardness, whereby it is better fitted to resist wear and tear, friction, exposure to the atmosphere and deteriorating causes, but it is also rendered completely incombustible.—Builder.

New Remedy of an Old Sore.  
"What is home without a mother?" says the old proverb, and the proverb is true. A home without her, if she be a happy, sunny-faced woman, healthy, happy, all ways looking the bright angel of the home, is a home without her. The beloved companion of her children, smiling and bustling out into the world every morning with a cheerful word of encouragement, and meeting him at night with a welcome kiss. A home is indeed made desolate by the loss of such a wife and mother. Many a mother is not this "bright and shining" one, however, because of her disposition that because weakness and disease have deranged her body, making her irritable, peevish, and fastidious, even to those whom she best loves. Dr. F. C. Parke's Female Remedy is never-failing remedy for female diseases. Hundreds of happy homes have been made new and attractive to this remedy, which transformed their wives and mothers from dependent, feeble invalids into healthy, helpful women.

To Consumptives.—The production of phthisis is a disease of the lungs, and it is the prospect of the Consumptive as yet of hope of cure in not a few cases, and in each playing an active part in the greater number. "The only remedy worthy of the name," which, if carefully and judiciously used may arrest and cure the disease, and is pretty sure to restore the patient to a healthy condition. This desideratum is fully met in Robinson's Phosphoric Compound. Cod Liver Oil with Lactophosphate of Lime, which is introduced into the system by the greater quantity of cod liver oil, which is "carefully" extracted and marked beneficial. Prepared by J. H. Robinson, Pharmacist, 100 N. 2nd St., Philadelphia. For sale by Druggists and Grocers. Price \$1.00 per bottle, or \$5.00 for six bottles.

THE PEOPLE WANT PROOF.  
There is no medicine prescribed by physicians, or sold by Druggists, that carries such evidence of its success and superior value as Robinson's Female Remedy for Female Complaints. Codd settled on the breast, Consumption, or any disease of the Throat and Lungs. A proof of that fact is that any person who has applied a Single Bottle for ten days and try its superior effect before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing everyone that uses it. Sold by all Druggists.

ERICKSON'S CATHARTIC AND COMFORTANT.—By a thorough knowledge of the natural laws which govern the operations of digestion and excretion, and by a careful application of the fine properties of well-selected cods, Mr. Erickson has provided our breakfast table with a delicately flavored beverage, which may save us many heavy doctor's bills by the judicious use of such articles as diet that a constitution may be gradually built up until strong enough to resist every disease. Hundreds of delicate ladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well stored with pure food and properly assimilated food.—Cod Service, Canada.—Sold only in packets labeled "ERICKSON'S COD," Homoeopathic Chemicals, London, Eng., &c.

BELEVILLE, SATURDAY, JAN. 4.

Some School Matters.

An charge of extravagance in their ex-  
penditure of the public money have from  
time to time been made against the Board  
of Education, it becomes our duty, know-  
ing the facts, to disabuse the minds of those  
who have not looked into the matter, of an  
impression which, as we shall convincingly  
show, is an unjust reflection upon a faithful  
and efficient body of public servants. This  
can only be done by reference to official re-  
turns, and by comparing the expenditures  
made on the Belleville High and Public  
Schools, with the amounts expended for the  
same purposes in other municipalities as  
nearly approaching in extent to Belleville  
as possible.

Thus, then, taking the official report of  
the Minister of Education for 1876 (the  
latest presented to the Legislature) as our  
authority, we herewith initiate a thorough  
comparison between the expenditures of the  
School purposes in the eleven largest places  
in Ontario outside of Toronto, namely,  
Belleville, Hamilton, Kingston, London,  
Ottawa, Brantford, St. Catharines, Col-  
bourn, Peterborough, Port Hope and  
Guelph.

Taking the "total school population" of  
these eleven places and the "total expendi-  
ture for public school purposes," we find the  
cost per pupil to be:

City or Town.	Total popu- lation.	Total ex- penditure.	Cost per pupil.
Hamilton.....	7,350	\$50,750	6.90
Kingston.....	1,175	8,000	6.81
London.....	21,000	142,000	6.76
Ottawa.....	10,000	67,000	6.70
St. Catharines.....	2,800	18,000	6.43
Belleville.....	2,400	15,600	6.50
Brantford.....	1,700	10,900	6.41
Colbourn.....	1,300	8,400	6.46
Peterborough.....	1,700	10,900	6.41
Port Hope.....	1,200	7,700	6.42
Guelph.....	2,200	14,000	6.36

The average cost is thus shown to be \$6.50  
per pupil—Belleville being thus 34 cents  
per pupil below the average.

most accurate.

No. 100, Total popu-  
lation..... 81,110  
Kingston..... 11,750  
London..... 21,000  
Ottawa..... 10,000  
St. Catharines..... 2,800  
Belleville..... 2,400  
Brantford..... 1,700  
Colbourn..... 1,300  
Peterborough..... 1,700  
Port Hope..... 1,200  
Guelph..... 2,200

Average cost \$40.20—Belleville being  
thus \$15.30 per pupil below the average.

Taking the number of pupils actually in  
attendance and the amount of teachers'  
salaries per head in the same places,  
the comparison is still more largely  
in favor of Belleville. The average  
in the Public schools was \$3.85 per head;  
in Belleville \$3.44, or 41 cents below the  
average. In the High Schools the average  
was \$7.57; in Belleville \$7.50, or 80.97  
below the average. The salaries paid also  
averaged much lower in Belleville than in  
the other places named.

These official returns form the most com-  
plete vindication of the members of the  
Board of Education, at every item of ex-  
penditure, which is in every instance  
below the average—in some cases very  
greatly so. We could give further details,  
all showing the same general results, but  
that is probably unnecessary, as the facts  
are sufficiently convincing of the fact, al-  
though the school tax is high, it is not so  
in comparison with the rate in other mu-  
nicipalities, whilst on the score of efficiency  
our schools compare favorably with those  
of any other municipality in the Province.  
With such an exhibit in their favor, the  
members of the Board of Education may  
well court criticism of their conduct, and  
involve discussion on the same before the  
public.

PLAYING WITH EGGED TOOLS.—During  
the last few weeks several leading Societies,  
expelled from Germany have had a grand  
reception in New York. The usual in-  
flammatory speeches were indulged in, and  
the martyrs felt themselves at home.  
Children came into the room, and the  
padding on the head of such much innocent  
may lead to serious results to the people  
of the United States. It is dangerous business  
playing with edged tools.

THE ELECTRIC LIGHT.—The Government  
authorities are trying the adaptability of  
the electric light, says the London Iron,  
"for the illumination of large workshops by  
means of lamps of the Royal Arsenal, and  
Woolwich. A new carpenter's shop has  
been erected at the Royal Laboratory yard,  
and, pending the provision of gassings, a  
single electric lamp has been hung from  
the roof, and by its light men have been  
able to work at a lamp for a week. It is found  
that the lamp furnishes a good light to work  
for fifty feet in every direction, and that  
for workshops where the roof is high and  
the space unobstructed, the electric light is  
suitable and pleasant."

The Blessings of Free Trade.

Day after day fresh proof comes through  
the English journals that the cost of the  
people in the mother country are becoming  
more thoroughly open to the injury  
which on sided free trade is working to the  
commercial and manufacturing interests  
of Great Britain, and we should not be  
surprised to see a proposal to materially  
alter the tariff in the direction of giving  
the home market to home goods. We have  
an issue before the people. "We have en-  
joyed the blessings of free trade now for  
some thirty years," remarks a writer in the  
Full Merit. "We are unprepared, in our  
own markets in corn and iron. The free  
trade policy has been a failure. It has  
enriched a few hardy and enterprising,  
and has ruined the masses of the people,  
and has brought about a general depression  
of all our purchasing in the cheapest mar-  
kets, laborers are locked out, farmers are  
ruined, and there is no market to sell  
our goods in. There must be a cause for  
all this if a man might find it. It is  
possible that we have been mistaken all  
the while, and that what we are pleased to  
call free trade may not be the universal  
cure it has been long believed to be."

A Nice Little Game.

We have heard to-day, that because the  
Intelligencer chose to recommend this  
Allegation for Ketchikan, we have made  
it our own. Reformers intended planning  
for Mr. Holden, hoping, with the assistance  
of the Conservatives, to put him at the head  
of the polls. Now we have seen the result  
of the present Municipal election, and as  
yesterday of several pronounced Reformers  
in different wards will show. But if this  
little game is to be played by the Grits  
and the Conservatives, we have a hand in it  
as well. It is a fact that Mr. Holden has  
been elected in Ketchikan. Ward by Con-  
servative votes, and by the Conservatives  
to withdraw their support. We cannot  
possibly be elected. Now if the Grits  
organize to plan for Mr. Holden, because he  
is a Grit and simply to serve a  
party purpose, it becomes the duty of every  
Conservative to vote against him.

The Municipal Elections.

We trust that early on Monday morning  
our friends will set themselves to work and  
continue all lawful efforts during the day  
to secure the election of the following gen-  
tlemen in the wards named:

Foster Ward.—David Brennan, Allan  
T. Davis and Francis Walbridge.

Samson Ward.—Nelson Lingham, George  
D. Dickson and Henry Melnichuk.

Ketchikan Ward.—Morgan Jalliet,  
Richard Costello and E. D. Sharwood.

Belleville Ward.—D. B. Robertson, R.  
S. Patterson and R. C. Hulme.

Belleville Ward.—Samuel Hamby and  
John Doyle.

Colborne Ward.—Richard Osborne,  
James St. Charles and Edmund Hayes.

McKenzie Ward.—F. C. Ridley, John  
Penter and Wm. Fowler.

Vote early, and then set to work on be-  
half of your candidates.

AMERICAN DISPATCHES.

New York, Jan. 4.—An Albany special  
says that the Governor's message will con-  
gratulate the people on the reduction of  
the State debt and taxation, and on the suc-  
cess of the present financial management, and  
will speak of the increase of industry.  
The Controller's report makes a favorable  
exhibit of the State's finances.  
The Auditor's report shows the total cash  
receipts for the fiscal year to be \$108,651.  
Expenses amount to \$248,902; deficiency  
of revenue \$70,049; which with interest makes  
the amount to be supplied by the tax \$214,632.  
In comparison of the business of 1878  
with 1877, it shows a loss in revenue of \$4,700;  
reduction in expenditure \$10,680; gain  
net revenue \$245,871. The Auditor  
thinks that the few cautions are necessary to  
meet the change in the business which time  
and enterprise have wrought.

Washington special.

The Tribune says that the officers of the  
New Chinese Embassy maintain that the  
United States is fully bound by an existing  
treaty, that changes must be reached by  
negotiation and that the Government is bound  
to see that no State assumes any hostile  
attitude towards the Chinese subjects in con-  
struction of the treaty.

Signal service predicts that the cold may  
last several days.

The Treasury it is understood that the  
Cabinet is divided upon the Chinese ques-  
tion, some favoring abrogation of the treaty  
and others favoring modifications by which  
immigration may be restricted. The Chinese  
Government will resist any offer to modify  
the treaty, but will not formally object to its  
abrogation.

New York, Jan. 4.—The weather yesterday  
was colder than for 10 years. It is be-  
lieved the severe grade of the past two days  
will result in great suffering at sea and many  
shipwrecks.

Joe S. Rockwell, of Brooklyn, a millionaire,  
died yesterday of scarlet fever and diphtheria,  
caused by defective drainage. He had given  
much study to the question of sewerage.

San Francisco, Jan. 4.—The statement shows a  
reduction in the city debt of over \$4,000,000 the  
past year.

Mr. Mary Laura Berger has begun a  
nursery at W. H. Vandenberg and her other  
brothers and sisters to determine the validity of  
certain devices made by Commander W. H.  
Vandenberg. The object of the action is  
said to be among other things the appoint-  
ment of a receiver.

Henry S. Elmore, a wealthy member of  
Belleville's church, has been charged with  
membership on a charge of gross immorality.  
The substitute of Olyphant & Co. shows li-  
abilities \$64,000; assets \$181,000.

Chicago, Dec. 4.—A large team was  
found charged to a horse-car track yesterday.  
An investigation disclosed that the farmer was  
dead to death in his wagon.

A team was stopped at the stock yards last  
night and the driver was found in a wagon  
frozen dead.

We appreciate no pleasures unless we are  
occasionally deprived of them. Restraint is  
the golden rule of enjoyment.

## "ROXY."

THE OVERMIND OF BOTH.

The oldest son of the Bonny family, the name of the father, had "turned out" as the village phrase ran. He was a young man of the highest promise, and many had been watching him with interest. He was a young man of the highest promise, and many had been watching him with interest. He was a young man of the highest promise, and many had been watching him with interest.

BENSON'S CAPSINE POROUS PLASTER

IS A GREAT REMEDY.

This really wonderful article was invented as an answer to the ordinary plaster of Paris. It contains all the merit of the common plaster, and the operation is quick and efficient. It is a very generally received opinion among hygienists that every infectious malarial fever, from a specific cause, is due to the introduction of the system of the spores or germs of some of these miasmatic organisms which occupy the deleterious latent between the animal and the vegetable character.

LAME BACK. Weakness of the Back and Muscles, Kidney Disease, Rheumatism, Sciatica, Lumbago, Affections of the Heart, Female complaints, Suburban and Neglected Colds and Coughs, Fever and Ague, Diseases of Children, such as Whooping Cough, Ordinary Croup, and other ailments, and every ailment in its early stages, and for all Local Aches and Pains of Young or Old.

For such ailments as these it is warranted to be superior to any other preparation.

Ask Any Physician. The remarkable merits of Benson's Capsine Plaster has been recognized by the most eminent physicians in every country, and we recommend those who have doubts concerning the truth of the above statements to consult with any reliable physician in their own locality. By taking this small trouble all will be confirmed that the article is really what it is claimed to be.

BENSON'S CAPSINE POROUS PLASTER can be obtained at any drug store in the United States or Canada for 25 cents. Particulars should be written to the proprietor, who will send a full and complete description of the article.

Sold by all Druggists. Price 25cts. Beware of cheap imitations.

NOTICE.

An application will be made to the Legislature of the Dominion of Canada for the extension of the term of office of the members of the Council of the Dominion of Canada, from the 31st day of March, 1879, to the 31st day of March, 1880.

"Mens sana in corpore sano."

If an angel from Heaven should suddenly announce to us that, in Belleville, we are surrounded by deleterious influences and poisonous gases, - whether needed in our houses or walking abroad, - whether engaged in the day's labor in our offices, workshops and stores, or preparing ourselves during the night for the next day's work by the aid of "kind nature's sweet restorer, balmy sleep," that we drink down poison with our water; that the food we eat is so impure that it is almost impossible to get through the day without feeling the effects of its deleterious influence; that we are so surrounded by deleterious influences and poisonous gases, - whether needed in our houses or walking abroad, - whether engaged in the day's labor in our offices, workshops and stores, or preparing ourselves during the night for the next day's work by the aid of "kind nature's sweet restorer, balmy sleep," that we drink down poison with our water; THE FRIEND OF MANKIND.

AN INTERNAL AND EXTERNAL REMEDY.

BALM FOR EVERY WOUND.

Heals Rheumatism and Neuralgia, and all other pains of the system.

It is the only remedy known for Rheumatism, or the "American Contagion" proved by thousands of cures.

It is rapidly absorbed, penetrates to the very bone, enters the circulation, neutralizes all "Rheumatic Poisons" circulating in the blood, and expels them from the system through the natural outlets.

The great success of this remedy with all classes is owing to the fact that it is safe and harmless, pleasant to take, gives instant relief, and can be used to a wider range of diseases in every day life, with greater success, than any preparation which research, skill, and "Medical Science" has yet produced.

As a preventive, no matter who it may be, Rich or Poor, Old or Young, who is suffering from any of the above named complaints, should call at the Office in Toronto, any day of the week, will get practical advice, and a "Free of Charge" trial of the medicine, and receive the medicine paid for.

This really wonderful article was invented as a remedy for the rheumatic poison.

It contains all the merit of the common porous plaster, and in addition a new and powerful combination of active vegetable ingredients, which make it a most powerful remedy for the rheumatic poison.

It is rapidly absorbed, penetrates to the very bone, enters the circulation, neutralizes all "Rheumatic Poisons" circulating in the blood, and expels them from the system through the natural outlets.

The great success of this remedy with all classes is owing to the fact that it is safe and harmless, pleasant to take, gives instant relief, and can be used to a wider range of diseases in every day life, with greater success, than any preparation which research, skill, and "Medical Science" has yet produced.

Daily Intelligencer.

TO MANITOBA BY RAIL.

To the Editor of the Intelligencer.

As intimated in a previous letter we arrived at Winnipeg, the metropolis of the North-West, at 1 o'clock on Friday morning.

The first persons we met after entering the Hotel were well-known representatives of Toronto business houses, in "claw-hammer" coats, white ties and gloves. They had just come in from an assembly held in the city hall.

We were surprised and greatly pleased to meet friends in this far off region.

THE CITY OF WINNIPEG occupies a commanding position at the confluence of the Red and Assiniboine rivers, 40 miles south of the lake of the same name, and 60 miles north of the international boundary line.

Like our own young city it is divided into two principal streets, running north and south, along the river, and Portage Avenue crossing at right angles about the centre of the city. These two streets are 132 feet wide.

The streets radiating from these are 66 feet wide.

The city stretches northward along the western side of Red River from the Assiniboine, which, flowing in from the west, forms the Hudson Bay Company's wharf, a distance of about two miles.

At the confluence of these rivers the Hudson Bay Company established their first post in 1812, and twenty years after built Fort Gary, around which the city has been constructed.

Its growth, notwithstanding the harsher climate, has been marvellous; the population in 1878 was 2,000. It now has a population of about 9,000. It was incorporated as a city by Act of Parliament on the 8th of Nov., 1873, and since then has built its miles of broad sidewalks, carried into effect the city plan, which scheme which cost nearly \$50,000, erected its creditable school buildings, fire engines, and built seven large water works, which are kept constantly filled with water to protect those parts of the city away from the river from fire.

THE CITY COUNCIL are numerous, and though as yet of few years, they are still new and comfortable. They are well attended, and have quite flourishing Sunday Schools.

Standing alongside of Fort Gary, at the south of the city, and glancing down broad, busy Main Street for half a mile or more to the river, we saw a fine view, lined with fine public and private buildings, one can hardly imagine himself 1,200 miles north west of Belleville, and among a people as intelligent and as good as those of our Province. The enormous impression western people have of this as an out of the "jumping-off place," the long distance travelled by rail to reach it, the last 800 miles of which is over a lonely, unbroken prairie, hardly prepares one to enter such a city in the 30th degree of latitude, and the surprise is therefore as pleasant as it is unexpected.

THE BUILDINGS are three being new brick manufacturing buildings, and a number of stone buildings that would do credit to more pretentious places have been erected. There is now an open market place, and the place which indicates the substantial character of the people.

We expected to find the buildings of a more primitive, temporary nature, and were greatly surprised at the fine structures erected by the government for its public offices, and at what has been done by private and corporation enterprise towards adorning the city.

There are larger stores and for heavier stocks carried on Main Street here, than on Front Street, Belleville. Although extensive business relations exist with American cities, the establishment of railroad communication between here and the United States, the merchants of Winnipeg much prefer doing business with Toronto and Montreal.

Although the people out here seem to have plenty of money and to spend it freely, trading adventures more than keep pace with the colonization and present requirements of the country.

Many of the rich and are wanted, but business of almost every kind is overdone, and keen competition exists in every department. Some young men who have not the ability to succeed in the western prairie, are men who dare to venture here now (far less favorable circumstances than under) as can be a livelihood. Many of them have been for years in the employ of the Hudson Bay Co. at different trading posts, have the refinements of the country thoroughly, can speak the French and Indian languages, and being well-versed, energetic, hard workers, have every advantage over strangers coming in to establish business.

We have had the pleasure of meeting many of the business men of the place, and

THE MINNETONKA.

A band of German Quakers, from southern Russia received a grant of eight townships

from the land of Red river, near the south line of the Province, and several low-lying ships on the west side, seven of which border on the international boundary line, and settled there in 1870. They are over 8,000 in number, and are prosperous and happy. They are an excellent quality of emigrants, as they brought into the country with them over half a million dollars in cash, bonds, goods, and personal effects. They are all hard workers, men, women and children. There are tens of thousands more of the same stamp in Southern Russia, dispossessed by their situation, and the people of Winnipeg are looking forward to a large emigration from there next summer. The Minnetonkas now swarm into the city with butter and eggs for sale, which they peddle about from house to house. Each year is said to make a great advance among them. The first year they were

BELLEVILLE, FRIDAY, JAN. 10.

**City and Vicinity.**

**THE GALLS.**—The were but four tons of the calls last night, namely three trunks and one prisoner.

**ORIENTATION.**—The City Council will meet at 11 o'clock a.m. on Monday, the 20th inst., for the purpose of organizing.

**FARMER'S ADVOCATE.**—The January number of this popular agricultural magazine fully maintains its reputation for excellence.

**EXHIBITIONS.**—There is likely to be a lack of amusements during the next few weeks, as several first-class companies have booked at the Opera House for dates extending over the next six weeks.

**BLEEKER STREET CHURCH.**—We understand that Elder Hawkins, the well-known Methodist preacher, will preach in the Bleeker St. Methodist Church, on Sunday next, morning and evening.

**NARROW ESCAPE.**—A little boy, whilst crossing Front Street at the corner of Bridge Street this morning, was knocked down by one of the stages, horses and vehicle passing over him. By the best of good luck the child escaped with very slight injuries.

**THE CANADA SCHOOL JOURNAL.**—The last number of this excellent periodical contains a portrait and biographical sketch of the Rev. Geo. W. Hill, A.M., D.D., C. C. L., Chancellor of the University of Halifax, and much matter of interest to educationalists.

**EVERETT CHURCH.**—A large gathering of friends greeted the scholars of the Sabbath School of St. Andrew's Church, who assembled together last night in the lecture room on the occasion of their annual entertainment. After the young folk had disported the bonhomie supply of good things prepared by the teachers, they set to work to carry out their programme for the evening, consisting of speeches, tableaux, recitations, and dialogues. This they did in a manner that did credit to the hearty applause with which their efforts were received. A very pleasant evening was spent, and the whole affair reflected credit on all engaged in it.

**SHAWCHURCH COMPANY.**—This popular organization open at the Opera House this evening with several great attractions viz: "The Fight of the Cloth Gold," the celebrated "Red Kickers" the three Loretta Brothers and the Clonipet sisters. Mr. McDowell's well known reputation is a sufficient guarantee of the excellence of the performances to be given. The Clonipet and Montreal parties have devoted columns of praise and we have no doubt the company will meet with a fine reception to-night. There will be a matinee of "Beauty and the Beast" to-morrow. This play is the attraction in Montreal during Christmas week and met with great success. By special request "Roadside" to-morrow evening.

**Belleville Horticultural Society.**

The annual meeting of the above Society was held last night, when the following officers were elected for the ensuing year:

**PRESIDENT.**—J. H. Peck.  
**VICE-PRESIDENT.**—Geo. Brown.  
**SECRETARY AND TREASURER.**—W. Jeffers Diamond.  
**DIRECTORS.**—Prof. Geo. Macdon, Dr. W. J. Palmer, W. J. Hudson, W. Jeffers Diamond, M. Kennedy, Jas. Macdon, and R. S. Patterson.

**DONT.**

Don't speak angrily to a child. Don't kick down when he is asleep. Don't go back on the friends of your parents. Don't allow your children to be molested. Don't neglect a cough thinking it will cure itself. (Thousands of people have been cured by Dr. F. C. Golden's Cough Discovery for it cures a cough or cold in one day and is required by any other medicine and is the only medicine known to a child that positively cures consumption in its early stage.)

**Bucklen's Arnica Salve.**

This Salve is the world for Cuts, Bruises, Burns, Ulcers, Rashes, Itches, and all the various skin diseases. It is the only medicine that gives perfect satisfaction in every case, and is sold by all druggists and by W. J. Macdon, 1st G. O. T.

**Ontario Legislature.**

FOURTH SESSION—THIRD PARLIAMENT.

OPENING OF THE SESSION—SPEECH FROM THE THRONE.

TORONTO, JAN. 9.

This afternoon, at 3 o'clock, His Honor the Lieutenant-Governor of the Province proceeded in state to the chamber of the Legislative Assembly, and, being seated on the throne, was pleased to open the session of the third Parliament of Ontario with the following speech:

"Mr. Speaker and Gentlemen of the Legislature. It is with much pleasure and satisfaction that I have this morning assembled for the discharge of those very important duties which are entrusted to me by the members of a Provincial Assembly. I have been most gratified to find a complete record of financial and commercial prosperity for our country, while a prompt renewal of trade and moderately good harvest have afforded a measure of relief to various causes have checked our progress, and completed a larger number of a period of depression. While, however, our agricultural resources are suffering from the low prices of grain and other products, most of our manufacturing industries are already extensive and growing. The production of Ontario and Europe in live stock, cattle, horses, sheep, and swine, and the production of our various manufactures, are now being sent to the various markets of the world, and it is with much satisfaction that I find the Dominion of the Empire and the Throne. Nor can I refrain from expressing my sympathy with all those who are engaged in the pursuit of the highest aims of the Dominion of the Empire and the Throne."

You will, I know, have shared in the general feeling of pleasure excited by the selection of the Hon. Mr. Macdon as Premier, and the nobleman so distinguished for his personal worth and his high position in the Dominion of the Empire and the Throne. The Hon. Mr. Macdon's selection as Premier is a most gratifying and enthusiastic by the fact that he is accompanied by his illustrious consort, Her Excellency the Princess Louise, whose presence is a fresh proof of the deep interest felt by the Imperial Government in the welfare of her Canadian subjects, and a renewed pledge of the loyalty and devotion of the Dominion of the Empire and the Throne. Nor can I refrain from expressing my sympathy with all those who are engaged in the pursuit of the highest aims of the Dominion of the Empire and the Throne."

It is a subject for congratulation that the long pending controversy between Ontario and Quebec respecting the division of the public debt and of the Province of Canada has now been settled. The Hon. Mr. Macdon's selection as Premier is a most gratifying and enthusiastic by the fact that he is accompanied by his illustrious consort, Her Excellency the Princess Louise, whose presence is a fresh proof of the deep interest felt by the Imperial Government in the welfare of her Canadian subjects, and a renewed pledge of the loyalty and devotion of the Dominion of the Empire and the Throne."

It is also a pleasing duty to call your attention to the fact that the Hon. Mr. Macdon's selection as Premier is a most gratifying and enthusiastic by the fact that he is accompanied by his illustrious consort, Her Excellency the Princess Louise, whose presence is a fresh proof of the deep interest felt by the Imperial Government in the welfare of her Canadian subjects, and a renewed pledge of the loyalty and devotion of the Dominion of the Empire and the Throne."

THE SPEECH.

Mr. Speaker informed the House that he had received a copy of the speech of his Honor the Lieutenant-Governor.

Mr. Macdon moved that the speech be considered to-morrow.

The motion was carried.

**MICELLANEOUS NOTICES.**

Mr. Macdon introduced the usual preliminary resolutions providing for the first reading of the bill to provide for the administration of oaths to persons appointed as Justices of the Peace, for the setting of the Vote and Proceedings, for the appointment of Select Standing Committees, for the withdrawal from the House of members whose names, being in question, were under consideration, and for the striking of any attempt to bribe members a misdemeanor.

The motions carried.

The House adjourned at 3.50.

**The Afghan War.**

CALCUTTA, Jan. 9.—On Tuesday General Roberts, after the battle of the hostilities were collected in considerable numbers, attacked them with three small columns, and was completely victorious. The Panjab cavalry charged a mass of the enemy, killing nearly three hundred. Skirmishes continued in the hills, and the British forces were in the hands of the enemy. One hundred prisoners, a quantity of grain, and a large number of cattle were captured. The British loss was trifling. The victory is expected to have a great moral effect.

**AMERICAN DISPATCHES.**

PORT WILLIAM, Neb. Jan. 10.—The hostile Chayennes, informed here since October, having been implicated that they were to be taken to the agency in the Indian territory, determined to do rather than submit to such a movement. Fearing the attempt to escape the commander placed a strong guard over their room. Last night the savages jumped through the windows of the prison and made for the prairie, which is thickly covered with frozen snow, firing on the guards from revolvers they had concealed, and dangerously wounding four of the guards. One died and another is not expected to survive. The main guard rushed out of the guard-house and followed and shot and killed over 40 savages. Over 100 cavalry, mounted and dismounted, are still in pursuit. It is thought that not one of the savages will escape.

OMAHA, Jan. 10.—The stockmen have refused to purchase any more ponies stolen from the Indians. They forwarded this resolution to Red Cloud and Spotted Tail. Red Cloud's response promises to assist in restoring stolen ponies, and the Indians have agreed to accept of an honest understanding and not a bad headed treaty.

NEW YORK, Jan. 10.—The Herald's cables say that Grant was waited on at Belfast by a deputation of the Ulster Unionists, including Hugh Boyd, M.P., and others. The Mayor and an immense crowd accompanied him to the depot. Crowds cheered him at the stations en route to Dublin, where the Lord Mayor and others welcomed him and conducted him to the Irish mail train. A special cable was prepared for Grant at Kingston on the mail steamer.

The two survivors of the foundered steamer, the "Edwin," of South Wales, which was wrecked on the rocks of the Irish coast, arrived at Belfast. The Mayor and an immense crowd accompanied him to the depot. Crowds cheered him at the stations en route to Dublin, where the Lord Mayor and others welcomed him and conducted him to the Irish mail train. A special cable was prepared for Grant at Kingston on the mail steamer.

Marie Ange Vinces, a young exile until released a civil servant, died at her home in London at his longings yesterday. He had stolen money from his mother in France and lost it at cards, leaving him destitute. The while was a fairly adjusted, while four men held him on his feet; seemingly oblivious to all surroundings. The Sheriff put the usual questions but there was no response. Then the Sheriff cut the rope, it lifted the culprit, barely from the floor, when he fell back and was caught by the assistants. The Sheriff seized the rope leading to the basement and lifted Hunter into the air and he was held by a number of men holding the rope. He died by strangulation but save no outward signs of pain. The Sheriff attaches deny that Hunter left a formal confession but it is generally believed either by admissions of his own or a voluntary statements he has admitted his guilt.

**AFTERNOON DISPATCHES.**

PHILADELPHIA, Jan. 10.—Hunter was hanged this morning in the presence of 200 people; he was extremely despondent; arose at 8, refused to partake of any breakfast, and refused to commit suicide by cutting an artery in his leg, which made him very weak. He subsequently refused to eat, but was kept alive by injections; his pulse has been as high as 180. His brother, son-in-law and Rev. Dr. Knickerbocker, were with him. Being unable to walk, he was carried down stairs utterly helpless. The while was a fairly adjusted, while four men held him on his feet; seemingly oblivious to all surroundings. The Sheriff put the usual questions but there was no response. Then the Sheriff cut the rope, it lifted the culprit, barely from the floor, when he fell back and was caught by the assistants. The Sheriff attaches deny that Hunter left a formal confession but it is generally believed either by admissions of his own or a voluntary statements he has admitted his guilt.

CONCORDIA, Jan. 10.—A heavy snow storm visited the southern portion of Ohio yesterday, extending as far south into Kentucky as Richmond. At Mayville it is the heaviest storm experienced in twenty years. Farmers are apprehensive of loss to stock.

NEW YORK, Jan. 10.—SEARCHED EUGENIA, an old recluse, was found dead in his house at Springfield, N. J., yesterday with evidence of foul play.

Bloomington, Jan. 10.—The coroner's jury find that Jas. H. Rogers, who was injured on New Year's, was murdered by Henry Folger, proprietor of the Bloomington Courier, and John Westworth, employee.

CINCINNATI, Jan. 10.—On Tuesday night three men tied an old man named Neill, near Fontenille, Ill., to a tree, outraged him, and killed him, and a daughter of 20, in a brutal manner. All are arrested.

GILLY LIPNITZ JONES OF ANOMIA CURS, Neutragia, Pace Ache, Rheumatism, Gout, Frost-bite, Rheumatism, Bone Throat, Erysipelas, Bruises, and Wounds of every nature in man or animal. The remarkable cure this remedy has effected in cases of the most obstinate and painful rheumatism over discovered for the cure of all kinds of pain. I feel everything without fail and will give Gilley's Rheumatism Lotion, a full trial.

**WEATHER REPORT.**

TORONTO, Jan. 10.—Probabilities for the next twenty-four hours: For the Lower Lake region, from 10 a.m. to 10 p.m., to west, very windy, partly cloudy, continued cold weather. For the St. Lawrence, fresh to strong westerly to northwesterly wind, clear to partly cloudy cold weather. For the Maritime Provinces brisk to fresh northerly to westerly winds, gradually clearing colder weather.

WATERBURY, Jan. 10.—Indications: Warmer, clear or partly cloudy.

**Special Notice.**

A CARD.  
To all who are suffering from the errors and infirmities of youth, nervous weakness, early decay, loss of manhood, &c., I will send a remedy that will cure you. DR. J. C. CHARGE. This great remedy was discovered by a missionary in South America. Send self-addressed envelope to the Rev. J. C. CHARGE, Station D, Right House, New York City.

THE front portion of this LAGER and BEER

Establishment is now completed,

comprising Bakers, Confectionery and Ladies

LUNCHEON-ROOMS.

Every effort has been made to secure the best

article of Bread, Biscuit, and Confectionery

from the country abroad, and to supply

upon getting a pure and unadulterated article

in each line at prices the most usual.

WEDDING-CAKES a Specialty.

The attention of the public is particularly

invited to the splendid assortment of

BISCUIT AND CRACKERS.

The Ladies Luncheon-Room is perhaps

the most elegant in the country for beauty and

convenience. Entirely distinct and separated

from the Restaurant, this apartment will be

a welcome and delightful accommodation to

the ladies country custom this House has been

favored with for the last quarter of a century.

The proprietor has spared no expense, and is

determined to please his customers. Tea and

Coffee, Cold Ham, Porter-House Steak, &amp;c.,

are attentive and obliging waitresses.

## A VISIT TO MANITOBA.

## No. VIII.

## The Province of Manitoba contains about

## 2,000,000 acres, or 14,000 square miles, and

## is divided into parishes, each containing 36

## square miles. These parishes or counties are

## again divided into townships, of which there

## are 300 in number. As yet, however, the

## country was not thrown open to

## settlement.

## Until 1871, before that time, however, no

## settlement had been made in the way of

## settlement along the river in the parish of

## St. George. As many of these pioneer set-

## tlers were French Canadians they were in

## the French system of dividing land in very

## inconvenient narrow strips averaging from

## 10 to 15 chains in width, the crooked wind-

## ing of the Red and Assiniboine rivers, and

## extending back a distance of two miles. These

## settlements had obtained from the H. M. Co.,

## who had transferred the contract to the Dominion

## Government, the right to cut out on the land

## for two miles straight on line with their

## property, up to a certain extent, the Govern-

## ment, and thus these narrow farms were

## made for miles long. Government scrip,

## which will be alluded to hereafter, was issued

## in payment for the old "Hay Right."

## These narrow farms extending along the

## river rendered the establishment of

## settlements sectional roads, school sections,

## the very difficult. The very large part of

## this small province set apart for

## RECREATION OF DIFFERENT KINDS

## no doubt, actually retards its rapid growth

## and development. 1,400,000 acres of good

## land mostly in the immediate vicinity of

## Winnipeg were set aside for half-breed

## reserves for the railway reserve; 500,000

## acres for the Métis; several townships

## as Indian reserves; a reserve for

## resettlement of French Canadians; the

## Bay Company's reserve of one-twentieth

## of the whole, or 450,000 acres; and sections

## 11 and 12 in each township for educational

## purposes. The Indian reserves, however, are

## not of the best of the Province and placed

## as these were in the hands of people not

## likely to do much toward the development of

## the agricultural, manufacturing or business

## interests of the country, is in the opinion of

## your correspondent, to say the least, abso-

## lutely a great mistake. It is, however, the

## half-breed reserve has not turned out a draw-

## back to the Province, but rather the reverse,

## as they nearly all sell at high prices, and

## then at more nominal figures as far as allot-

## ments made and the titles pass into their

## hands. Generally they not only sell their

## claims at once, but also of their own volun-

## tary, their children, known as "miserable

## creatures," an explanation of which we give

## further on.

## A contagious mania for

## REAL ESTATE SPECULATION

## has existed here for the past three or four

## years, and the quarantine restrictions have

## not been sufficiently guarded to keep it from

## reaching outward even to the "City of the

## Bay."

## The great sources of investment and

## speculation here are real estate, and the majority

## of these of a speculative nature of mind have

## invested all their available funds in it. Mer-

## chandise in many instances have drawn heavily

## from the banks, and taken so much out of

## their legitimate business for this purpose that

## they have placed themselves in embarrassing

## positions. There are a number of wealthy

## men in Winnipeg to-day who get all the

## money they require for their speculative

## and thereby constantly keep themselves what

## is termed "land poor."

## As many of your readers are interested in

## land claims and other sources of land

## speculation, in which they have injudiciously

## invested and

## GOT BADLY WINDLED

## on account of not understanding their true

## character, I shall now endeavor to fully ex-

## plain them. Those which are the principal

## sources of speculation may be classed under

## the following heads, viz: Half-breed claims,

## Government scrip, allotment claims, and city

## property. All four of these have in the past

## been a favorite form of speculation, and many

## who entered into it a few years ago have

## ruined themselves. On account of narrow

## titles, however, the only source that will be

## favorable for speculation after this winter

## will be allotment claims.

## HALF-BREED LANDS.

## At the time of the organization of the

## Dominion Land Department here, in 1873, there

## were Parish organizations extending nearly

## all the way along the Red river from the

## State to its mouth, some 75 miles, and about

## the same distance to the Assiniboine. They

## were, according to the record issued from the

## Land office, as follows:—On the Red river

## from the mouth down to the north, north St.

## Agathe, St. Norbert, St. Vital, St. Boniface; east

## and west Winnipeg, St. John, Kildonan,

## St. Paul, St. Andrew, south and north St.

## Clementine and St. Peter. Three of the

## settlements, going from east to west, being St.

## James, St. Charles, Headingley, St. Francis

## Xavier, St. John, St. Paul, St. Peter, All

## Saints, and Portage La Prairie.

## value, and are now selling here as fast as

## placed on the market at \$100 each. There is

## something wrong about claims offered at less,

## as they are not readily purchased at that price.

## The convenience of a claim cannot of course,

## be placed on record till after the allotment

## has been made, therefore, a speculator who

## definite view of ascertaining whether a claim

## he purchases has previously been sold or not.

## The half-breeds are as a rule said to be honest,

## but they are not to be trusted in the least.

## There seems to be a percentage of knaves among

## them. Unscrupulous speculators make a

## business of buying up what they know

## have previously been sold. They are able to

## procure them under any circumstances for a

## mere trifle, probably a glass of liquor and

## or ten dollars. Only about five per cent of

## the claims have been sold a second time,

## and nearly all of these have gone down to

## Ontario. Through purchasing them a number

## of BELLEVILLE SPECULATORS HAVE BEEN MADE

## WINDLED.

## Two or three instances have been brought

## under my notice where claims have been pur-

## chased by Belleville people after the allotment

## were actually made and other parties

## held deeds of the property.

## Until within the past two years hundreds

## plotted little or no value upon their rights to

## these reserves and when in straightened cir-

## cumstances sold them for a very nominal

## sum.

## They sell before the allotments are made

## and enter into bonds to convey to the pur-

## chaser all their right and interest. In other

## instances they execute a deed to the purchaser,

## leaving the description blank and giving him

## the power of attorney to fill in when the allot-

## ment is made. Some who sold claims before

## their value, or for much less than others re-

## ceived for similar claims, sold them over a

## second time. Others have been induced by

## dishonest speculators to sell again and again,

## until sometimes 15 or 20 fold claims for the

## same property, and when the allotments are

## made there is a general rush for the Registry

## office, and

## THE FIRST TO RECORD A CLAIM

## as a matter of course is the successful party.

## Those who have been induced to either

## sell before they only gain one out of a

## number they will be amply remunerated.

## One Belleville purchaser has only succeeded

## in getting one out of 18 of his claims already

## allotted. Criminal proceedings can be taken

## against the assignee for such swindling, but it

## is not often done, as he in many cases moves

## to the Rock Mountains or outside the limits

## of the Province.

## HOW ALLOTMENTS ARE MADE.

## WONDERFUL DISCOVERY.

## EMPIRE RELIEF.

## THE FRIEND OF MANKIND.

## AN INTERNAL AND EXTERNAL REMEDY.

## BALM FOR EVERY WOUND.

It cures Rheumatism and Neuralgia, and all the pains of the "Rheumatic" class.

It is the only known remedy for Rheumatism on the "American Continent" proved by thousands of successful cures.

It is a simple and safe remedy, and gives instant ease to the unfortunate sufferer.

It rapidly allays, penetrates to the very bone, and cures the "Rheumatic" class.

It cures the "Rheumatic" class, circulating in the blood, and exerts its power through the natural excretory organs.

## IT CURES

Toothache, Earache, Headache, Neuralgia, Rheumatism, Sprains, Swellings, Inflammation, Burns, Cuts, Bruises, Pains in Side, Pain in Back, Pain in Limbs, Pain in Feet, Coughs, Colds, Frost-bites, Chilblains, Diarrhoea, Dysentery, Summer complaints, &c.

It will cure the most agonizing Pain internal or external, in one instant of time. Pocket your money and give it a trial; the investment is small and reward certain.

The great secret of its success with all classes is owing to the fact that it is safe and harmless, pleasant to take, gives instant relief, and can be applied to the widest range of diseases in every day life, with greater success than any preparation which research, skill, and "Medical Science" has yet produced.

It is a proof of the great power over disease, any person, no matter who it may be, has to give relief to the suffering.

From any of the above painful complaints, will call at the Office in Toronto, any day of the week, will not give practical proof, but will give you the "Rheumatic" class, power over pain in one application.

Testimonials from all parts of the world, and from the most distinguished names, giving expression to the most grateful gratitude for astonishing cures which it has performed, and we would be pleased to receive testimonials from all others who use it successfully.

It is the highest respectability recommendation is as most effective "domestic remedy" for the relief of Pain in cases of sudden emergency.

Carry it to your home, and it will prove a blessing to your family and afflicted friends.

It challenges the World to produce its equal.

Price, 25 cents per Bottle.

THE FOUR REVIEWS

BLACKWOOD.  
AUTHORIZED REPRINTS

THE EDINBURGH REVIEW (Whig),  
THE WESTMINSTER REVIEW (Liberal),  
THE LONDON QUARTERLY REVIEW (Conservative),  
THE BRITISH QUARTERLY REVIEW (Champion),

BLACKWOOD'S EDINBURGH MAGAZINE.

These Reprints are not selections; they give the original in full, and at about one-third the price of the original.

No publication can compare with the leading British Periodicals, as named, reprinted by the Edinburgh Review, Westminster Review, London Quarterly Review, and British Quarterly Review, in respect to fidelity of research, accuracy of statement, and purity of style that they are without equal.

They keep pace with modern thought, discovery, experiment, and advance, whether in religion, science, literature, or art. The latest writers fill their pages with most interesting reviews of history, and with an intelligent narrative of the great events of the day.

For any one Review, \$4.00 per Annum.  
For any two Reviews, \$7.00  
For any three Reviews, \$10.00

These items of subscription by the publisher, is equivalent to a reduction of 20 per cent on the cost to subscribers in foreign parts.

ESTABLISHED 1834.

PREMIERS.

New subscribers (paying early) for the year 1878 may have, without charge, the issue for the last quarter of 1877 of each periodical as they may subscribe for.

Or, instead, new subscribers to any two, three, or four of the above periodicals, may have one of the "Four Reviews" for 1878; subscribers to any five may have two of the "Four Reviews," and so on.

Neither premium subscribers to the "Four Reviews" can be allowed, unless the money is remitted direct to the publishers. No premium subscribers to the "Four Reviews" can be allowed, unless the money is remitted direct to the publishers. No premium subscribers to the "Four Reviews" can be allowed, unless the money is remitted direct to the publishers.

To secure premiums it will be necessary to make early application, as the stock, and for that purpose is limited.

"ROXY."

BY EDWARD EGGLESTON.

CHAPTER XL.

ROXY AND WHITTAKER.

ROXY was not one of those who nurse a wrong and keep the judgment warped by anger.

The life-long habit of looking for the good in every man was his.

As soon as he saw a man who was over his own pride and had a drum-head court-martial on himself.

There was a difference between the two. The one was high and tone of a nature raised and weak.

The test of moral character is not in the words, but in the action.

Whittaker was not one of those who nurse a wrong and keep the judgment warped by anger.

## WONDERFUL DISCOVERY.

## EMPRESS RELIEF.

THE FRIEND OF MANKIND.

AN INTERNAL AND EXTERNAL REMEDY.

BALM FOR EVERY WOUND.

It is the only known remedy for Rheumatism, Gout, and all the kindred affections, by thousands. As soon as it is applied it gives instant ease to the unfortunate sufferer.

It is rapidly absorbed, penetrates to the very bone, cures the inflammation, and, using all "Rheumatic Poisons" circulating in the blood, and expels them from the system through the natural excretory organs.

IT CURES.

Toothache, Earache, Headache, Neuralgia, Rheumatism, Sprains, Swellings, Inflammation, Burns, Cuts, Bruises, Pain in Side, Pain in Back, Pain in Chest, Pain in Shoulder, Cough, Cold, First-aid, Chills, Rheumatism, Dysentery, Summer Complaints, &c., &c.

It will cure the most agonizing Pain in internal or external, in one instant of time. For every year's use and give it a trial. The investment is small and relief certain.

The great secret of the success with all cases is owing to the fact it is safe and harmless, pleasant to take, gives instant ease, and can be applied to a wider range of cases than any other remedy, with great success, than any preparation which requires skill, and "Medical Science" has yet produced.

As a proof of its great power over disease, any person, no matter who it may be, Rich or Poor, Old or Young, who is suffering from any of the above painful complaints, will find it as the Office in Toronto, any day of the week, will get practical proof "Free of Charge" of its magical power over pain in one application.

Testimonials from all parts of the Dominion are constantly coming to hand, giving expression to the most grateful gratitude for relieving cure which it has performed, and it would be pleased to attend testimonials from all others who are cured.

Physicians of the highest responsibility recommend it as a most efficient "Domestic Remedy" for the relief of Pain in cases of sudden emergency.

Carry it to your house, and it will prove a blessing to your family and all afflicted friends.

Druggists are selling enormous quantities of it wherever introduced.

I challenge the World to produce its equal of advantage.

Price, 25 cents per Bottle.

The Trade supplied through the Wholesale Drug and Patent Medicine House of Montreal, Toronto, Hamilton and London.

SOLD BY ALL FAVORABLE DRUGGISTS.

249

SEND 25c. to ROWELL & CO. New York, for Pamphlet of 100 pages, containing full description of the medicine and estimate of its value.

## BENSON'S CAPCINE POROUS PLASTER.

## IS A GREAT REMEDY.

This really wonderful article was invented as an improvement on the ordinary porous plaster, and contains all the merit of the common porous plaster, and in addition a new and powerful combination of active vegetable ingredients, which makes it not only superior to other porous plasters, but to all other external remedies, including liniments and the so-called electric appliances, &c. It acts more promptly, powerfully and effectively than any similar remedy ever devised.

ITS CHEAPNESS.

A single plaster costs but 25 cents, and in many instances, especially when intended for children, it can be cut in two and the pieces applied at different times. It is not only cheap, but it is so easy to use, and it is so effective, that it is a great saving to the family.

LAME BACK.

Weakness of the Back and Neck, Kidney, Rheumatism, Sciatica, Lumbago, Affections of the Heart, Female complaints, Stomach and Digestive Disorders, Coughs, Fever and Ague, Diseases of Children, Croup and Croup, and all other ailments in its early stages, 3 and 4 local Aches and Pains of Young or Old.

For such ailments as these it is warranted to be superior to any known remedy.

Ask Any Physician.

The remarkable result of Benson's Capcine Plaster has been recognized by physicians and chemists everywhere, and we recommend those who have doubts concerning the truth of the above statements, to consult some reliable physician in their own locality. By trying this plaster, which is all well convinced that the article is precisely what it is claimed to be.

## BENSON'S CAPCINE POROUS PLASTER.

can be obtained of almost any druggist in the United States or Canada for 25 cents. Purchasers should be careful to get the genuine, and to have a similar circular stamp.

Sold by all Druggists. Price 25c. a piece.

## COUNTY COUNCIL.

THIRD DAY—MORNING SESSION.

The Warden took the chair at 10:25.

The minutes of yesterday's session were read and approved.

COMMUNICATIONS.

The Warden read a communication from Brock & Co. regarding photograph of the Council.

Mr. Ashley proposed to procure such a picture at the private cost of the members.

From the County Judge, stating that the employment of a short-hand reporter the sitting of the County Court had been shortened by four days, and the work had been very satisfactorily performed.

Mr. Aylsworth said that his experience had been satisfactory, a considerable saving having been effected.

From the Mayor, enclosing a draft of a petition from George Lawson, Esq., President of the Credit Valley Railway Company, to the Dominion Government, relative to railway business.

REPORTS.

Mr. Francis presented the report of the Committee on the Trent bridge project, approving of the plan, and asking that the money to do the work be by the County Surveyor, who is authorized to advertise for tenders; that the cost will be in all about \$7,000; and that the Committee have power to sit again to consider the tenders, and report at the March session.

Mr. Francis moved the adoption of the report.

Mr. Emme considered that as the Committee was small in numbers, he would like further discussion and explanation before adopting a report upon so important a matter.

Mr. Francis agreed that it is desirable to hold the bridge during the winter, as the ice is then passable and the traffic, which is very heavy, would not be interfered with. The rebuilding of the bridge is a necessity, as it would be dangerous by the time that spring arrives. It would be economical to have the swing bridge of iron, as being more durable than wood. Acting on the principle that whatever money over the cost might accrue to a contractor should be paid to our own people, the Committee had determined to have the work done under the superintendence of the County Surveyor. It having been determined to build the bridge, and it being a necessity, the sooner the work was done the better.

Emme thought the Council should know who were the tenders and their amounts.

Mr. Kavanagh moved to refer the report to the Committee on Roads and Bridges.

Mr. Ashley supported the motion. The present expense was large and ought to be carefully considered. In consequence of its being a permanent improvement principally to the benefit of Trenton, by allowing large vessels to pass above the bridge, the representatives of Trenton ought to agree that their municipality should contribute more largely to the taxes of the County. If this were done, he would support the erection of the bridge.

WATTS AND MEANS.

Mr. Francis had no objection to the report being referred to the Committee on Roads and Bridges, and it was referred accordingly.

BY-LAW.

Mr. Aylsworth introduced a By-law for the appointment of Auditors and High School Trustees.

Mr. Aylsworth moved that when the Warden leaves the chair the Council stand adjourned until 7:30 on Tuesday—Carried.

NOTICE.

Mr. McDavitt gave notice of a By-law to assume the bridge over Papineau Creek, in the township of McDuff.

FINANCE COMMITTEE.

Mr. Murphy moved that the Finance Committee be composed of Messrs. O'Flynn, Van der Horst, and Aylsworth.

Mr. Emme moved that the Committee be composed of Messrs. Van der Horst, O'Flynn, and the mover.

Mr. Murphy's motion was carried.

COMMITTEE ON WAYS AND MEANS resumed.

Several accounts were passed.

The petition of J. A. McIlroy for increase of pay as caretaker of the County buildings was taken up.

Mr. Francis thought the labor of the prison of the County was a very heavy one, and that the County should be benefited thereby decreasing the labor of the caretaker.

Mr. Ashley stated that the caretaker has been a long time, and the room clean, and there are but few prisoners who are allowed outside of the goal yard.

After some further discussion the addition of \$200 made to Mr. Gilbert's salary for this year.

Committee resumed, reported progress and asked leave to sit on Tuesday.

It being 12 o'clock the Warden left the chair.

EVENING SESSION.

The Council resumed at 7:30.

COMMITTEE ON WAYS AND MEANS resumed.
